- 3) Testing of the candidate's job-related soft skills (this is the Recru-Tec test step)
- 4) Conducting Reference checks with previous employers
- 5) Conducting a Background check prior to offering the position.

GENERAL PROFILE:

NOTE: TRAITS BELOW THE CRITICAL MINIMUM PROFILE

- Determine if the mentioned low traits are easy to manage or correct, considering the details of the job description.
- Check if these very low traits could be due to some recent difficult situation.
- Plan to discuss with or challenge the evaluated person in a second interview if you did not notice or were not told about the possibility of such situation in the evaluated person's recent past.

This profile contains one or more *conflicting personality characteristic(s)*.

The analysis of conflicting personality characteristics (also called personality syndromes) reveals behavioral patterns which would not be visible by just considering individual personality traits. When applicable, the existence of conflicting personality characteristics may help explain irrational, undesired or uncontrolled (compulsive) attitudes. Conflicting personality characteristics can be temporary or recurrent.

IMPORTANT: Please note that the existence of one or more conflicting personality characteristics does NOT systematically disqualify an applicant.

See the note(s) below. Do not hesitate to contact us if you have any question.
